Hi Jason,

I have five wells that may match your site. Here is the info on them.

#103054 1260 Poland Spring Rd 4/26/02 20' casing 10' overburden 220' deep 12 GPM
#103059 1260 Poland Spring Rd 5/3/02 40' casing 35' overburden 600' deep 12 GPM
#122955 Route 11 5/7/05 40' casing 15' overburden 690' deep 1 GPM
#122983 Route 11 6/16/05 40' casing 29' overburden 200' deep 23 GPM
#128385 Route 11 4/24/05 30' casing 22' overburden 420' deep 22 GPM

Let me know if you need additional information.

Bob

Subject: MGS Water Well Database Request for site in Casco

Good morning Robert,

I was wondering if you could query the MGS database for drilled wells registered to "Hancock Lumber" on Poland Spring Road in Casco. The sawmill facility is located at 1260 Poland Spring Road and to DEP's knowledge they have three production wells for log wetting and one drinking water well. Across the street is the Bargain Barn at 1279 Poland Spring Road, which has a drinking water well also.

If you have any information regarding these wells please let me know.

Thank you!
